RETAIL PRICE LIST

FALL
1925

SPRING
1926

Attention

O the average person a tree is a tree and a plant a plant when comparing prices and the most important item, quality, is entirely overlooked. The everlasting misfits, failures, replanting and disappointments come too often from cheap stock and from unreliable sources. The basis of purchase should be not how cheap, but how good, and then you won't have to worry about the future of your stock. Investigate your nurserymen before you buy.

In this price list we believe that we offer as good values as can be found in all America, quality and dependability considered. All we ask is a trial order and that you follow our planting instructions (furnished with every order) and reasonable care after planting.

We invite investigation and inspection.

TERMS OF SALE

Please read page number 3 of our catalog... It is very important.

Prices—These published prices are net and not subject to further discount or reduction. Special prices are only made on large quantities of stock.

Terms—Cash as explained in catalog, unless previously arranged.

Complaints—Must be made at once on receipt of goods.

Substitution—We take liberty of substituting unless otherwise ordered.

Genuineness—We believe all stock sent out by us will be true to name as labeled, but cannot and do not assume any responsibility beyond original purchase price.

H. F. HILLENMEYER & SONS

Blue Grass Nurseries

LEXINGTON - - KENTUCKY

EVERGREENS

HHEIGHT is not a fair indication of the value of an evergreen as some plants may be grown with practically no side branches, lacking that fullness so very necessary in getting pleasing effect. The plants we offer have been sheared several times to make them compact and shapely. The prices quoted here cover digging with a ball of soil and proper protection of the roots by burlapping. It has been necessary to slightly increase our prices over last year because of growing conditions this summer.

DECIDUOUS SHRUBS

WE have an unusually fine stock of Deciduous Shrubs this year. This stock has been transplanted, pruned and are therefore well rooted and well branched specimens and ready for immediate effect. These are being quoted at "each" and "ten" rates and if your order amounts to 50 or more shrubs you may deduct ten per cent from the ten rate. All sizes and any assortment may be had under these conditions.

SHADE TREES

WE believe at these prices quoted we are giving you more value in Shade Trees than in any other thing in our whole nursery. Like in Evergreens height does not convey the real value and quality but the thickness of the trunk and the shapeliness of the tops of shade trees is indicative of their true value. We have fine blocks to dig from this year and assure you of good specimens. We also have extra large specimens that are not quoted because of the difficulty in packing. If you are equipped to truck these extra large specimens, we will quote you.
